October - Fire Prevention Month
12-Months-To-Preparedness

Fact:
The majority of fatal fires occur when people are sleeping, and because smoke can put you into a deeper sleep rather than waking you, it's important to have mechanical early warning of a fire to ensure that you wake up. If anyone in your household is deaf or if your own hearing is diminished, consider installing a smoke alarm that uses a flashing light or vibration to alert you to a fire emergency.

Fire Escape Checklist

___ Do you have working smoke alarms in your home?
___ Is there a smoke alarm in every sleeping room and outside each sleeping area?
___ Is there a smoke alarm on each level of the home, including the basement?
___ Do you test your smoke alarms at least once a month?
___ Do you know the sound of your smoke alarms?
___ Does your family have a home fire escape plan?
___ Do you know two ways out of each room in your home?
___ Do you know what to do when you hear your smoke alarm?
___ Are all the exits in your home clear of trash and toys?
___ Has your family picked a meeting place outside the home where everyone can go when they've escaped a fire?
___ Does everyone at home know how to call the fire department once they are outside?
___ Do you and all family members practice your escape plans at least twice a year?

Make Sure You Have The Following Items For Your Home:

1) A fire extinguisher for each floor of your home and your garage
2) Smoke detectors and batteries - Be sure to check the batteries monthly
   (Above information from www.nfpa.org)

General Disaster Kit Items:

1) Feminine supplies
2) Personal hygiene items
3) Disinfectant

   Why? In an emergency, you may be without fresh water and soap. It is important to have the above items in your kit to keep you healthy and clean.
